We in Ashirwad feel that the market should be buoyant for the next 4-5 years.

The year 2014-15 will always be a memorable year in the history of Ashirwad. The last couple of years, we analyzed more than 500 Companies to select our final universe of 200 Companies to invest in. We proudly call it the Ashirwad-200. Ashirwad-200 is a selection of large-cap, mid-cap and a select few small-cap Companies with good business prospects for growth in the coming years. We have been careful to include Companies from each industry, some established ones, some with good growth prospects and others with a huge potential to grow in the future. All these Companies have been largely selected through the technical indicators filter which is very unique to Ashirwad. We feel that Ashirwad-200 should beat the market performance in the long run i.e. 3-4 years. VIII. TAXATION :

Income Tax Expense comprises of current tax (i.e. amount of tax for the period determined in accordance with the income tax law), deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period). The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognized using the tax rates that have been substantially enacted by the balance sheet date. Deferred tax assets are recognized only to the extent there is reasonable certainty that the assets can be realized in future; however, where there is unabsorbed depreciation or carried forward loss under taxation law, deferred tax assets are recognized only if there is a virtual certainty of realization of such assets. Deferred tax assets are reviewed as at each balance sheet date and written down or written up to reflect the amount that is reasonably/ virtually certain (as the case may be) to be realised.
